

## Highlights

- DSL Transformer Line Expanded
- Record FY 2000 Sales Increase

## New Products - Jobs

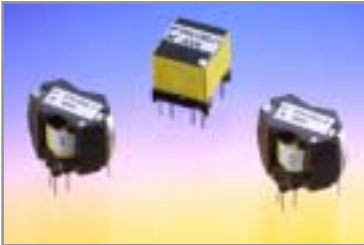

- DC-DC Converters for Telecom
- Sr. Design Engineer Opening

# Premier Magnetics UPDATE

Q4  
2000

### PM-DSL LINE ISOLATION TRANSFORMERS

*Premier Magnetics continues to expand the PM-DSL line of DSL Transformers. In addition to existing UL/CSA Recognition new certifications are planned, including BABT, TUV and IEC.*

Premier DSL Magnetics feature small size, excellent balance, low distortion and extended temp ranges.

They are designed to support a range of leading semiconductors, including chips from Alcatel, Globespan, Conexant, Lucent and Level One. Products support applications ranging from ADSL to HDSL2. Surface Mount versions are also available.

Premier is a recognized price leader and offers the fastest lead times in the DSL Transformer market.

### PREMIER 2000 SALES INCREASES 80%

*Premier Magnetics phenomenal sales and profit growth continues. Dramatic increase in 2000 represents growth in Communication Products, especially DSL as well as increases in LAN and Power Magnetics.*

New Premier US Headquarters, Lake Forest, CA

### DC-DC CONVERTER LINES EXPANDED

*Premier Magnetics now offers a complete line of DC-DC Converters for Telecom applications.*

A greatly expanded line of New DC-DC products has been introduced to support 48VIN (36-72) Telecom applications. Other Inputs are available including 5, 12 and 24 Volt. These cost effective modules have isolation voltages ranging from 500 Vdc to 3000 Vrms.

#### FEATURES

- 7.5 to 30 Watts Fully Regulated Outputs
- 2:1 and 4:1 Wide Input Range
- High Conversion Efficiency
- Self Reset Output Short Circuit Protection
- High Power Density
- Remote On/Off Control

### SR. TRANSFORMER DESIGN ENGINEER

*Premier Magnetics has an immediate opening for a Sr. Transformer Design Engineer with 5 years + Communications design experience.*
